If not, your doctor or eyes will perform an eye exam or or physical. Proven to start working in one hour and won't leave you feeling drowsy. Tears are normally discharged through your tear ducts and then evaporate. Consult your doctor if you have a prolonged case of watery eyes, especially if it is accompanied by other symptoms. It is common to temporarily produce excess tears when you are emotional, laughing, coughing, vomiting, experiencing strong taste sensations, or yawning. One of the most prevalent reasons for watery eyes is dry eye syndrome. Extremely dry eyes can cause you to produce excess tears. ChildrenAAs BENADRYLA@A Chewables Grape-flavored, chewable medicine with an antihistamine that works when your children need it most. Medically reviewed by Ann Marie Griff, O.D. eAAA Written by Ann Pietrangelo eAAA Updated on August 12, 2019CausesSeeing a doctorTreatmentOutlook OverviewTears serve several key roles in your body. Because your eyes are not receiving proper lubrication, you continually produce an abundance of tears, which continues the cycle.If your tears do not contain the right balance of water, salt, and oils, your eyes can become too dry. dry.
