Contoh report text beserta generic structure

Taciturn
Makan banyak daging adalah kebiasaan orang-orang yang tinggal di daerah tropis. Hal ini disebabkan karena suhu yang panas membuat mereka merasa nyaman dengan makanan yang mengandung lemak. Selain itu, mereka juga menyukai makanan yang mengandung lemak karena lemak dapat menyimpan energi. Makanan yang mengandung lemak juga dapat membantu mereka bertahan hidup di daerah tropis yang lembap. Makanan yang mengandung lemak juga dapat membantu mereka bertahan hidup di daerah tropis yang lembap. Makanan yang mengandung lemak juga dapat membantu mereka bertahan hidup di daerah tropis yang lembap.

Report Text about Cat

Cats are considered as "perfect carnivores" with teeth and particular digestive tract. The last premolar and molar teeth form a pair of shears on each side of the mouth that works effectively as a pair of scissors to tear the meat. Although these features also exist in the Canidae or dog, but these teeth are better developed in cats. Unlike other carnivores, cats eat almost non-vegetable substance. Bears and dogs sometimes eat berries, roots, or honey as a supplement while cats only eat meat, usually freshly killed prey. In captivity, cats can not adapt to a vegetarian diet because they can not synthesize all the amino acids they need from plant material. It is in contrast with domesticated dogs, which commonly are fed a mixture of meat and vegetables and sometimes it can adapt to a completely vegetable meal.

Cats have mingled with human life since at least 6000 BC, from the skeleton of the cat found on the island of Cyprus. The ancient Egyptians of 3500 BC have used cats to keep away the rats or other rodents from the barn where the crops were saved. Currently, the cat is one of the most popular pet in the world. Cats that his breed are recorded officially as a cat breeds or pure breed are Persian, Siamese, Manx, and the sphinx. These kinds of cat are usually bred in official captivity animal. The number of purebred cat is only 1% of all cats in the world, the rest is a cat with mixed ancestry such as wild cats or domestic cats.

Kucing dianggap juga kucing domestik atau kucing rumah rumah inah. Felis silvestris atau Felis catus adalah seperti mamalia karnivora dari keluarga Felidae. Kata "kucing" dianggap berasal dari kata "kucing" yang lebih diucapkan, tetapi bisa juga merujuk kepada "kucing besar" seperti singa dan harau.

Kucing dianggap sebagai "karnivora yang sempurna" dengan gigi dan saluran pencernaan yang khusus. Gigi premolar dan molar pertama membentuk pasangan yang di setiap sisi mulut yang bekerja efektif seperti gunting untuk memotong daging. Makanan cat ini juga termasuk pada bentuk Canidae atau anjing, tapi cat ini berkembang lebih baik pada kucing. Tidak seperti karnivora lain, kucing hampir tidak makan apapun yang mengandung karbohidrat. Biasanya dan anjing hanya memakan buah, akar, atau madu sebagai suplemen, sementara kucing hanya memakan daging, biasanya hewan segar. Dalam penangkaran, kucing tidak dapat dipelihara dengan makanan vegetarian karena mereka tidak dapat mensintesis semua asam-asam amino yang mereka butuhkan hanya dengan memakan tumbuhan; berbeda dengan anjing pemeliharaan, yang sering diberi makan produk campuran daging dan sayuran dan kucing dapat beradaptasi dengan makanan vegetarian secara total.

❖ Explanation Text

TSUNAMI

The term of "tsunami" comes from the Japanese which means harbour ("tsu") and wave ("nami"). A tsunami is a series of waves generated when water in a lake or a sea is rapidly displaced on a massive scale.

A tsunami can be generated when the sea floor abruptly deforms and vertically displaces the overlying water. Such large vertical movements of the earth's crust can occur at plate boundaries.

Subduction of earthquakes are particularly effective in generating tsunami, and occur where denser oceanic plates slip under continental plates.

As the displaced water mass moves under the influence of gravity to regain its equilibrium, it radiates across the ocean like ripples on a pond.

Tsunami always bring great damage. Most of the damage is caused by the huge mass of water behind the initial wave front, as the height of the sea keeps rising fast and floods powerfully into the coastal area.

❖ Procedure Text

THE PROCEDURE OF MAKING MEATBALLS

Ingredients:

- 1 kilo of very fine minced meat (preferably beef)
- 2 eggs
- 300 grams of tapioca-flour
- 4-8 cloves of garlic
- 1 red onion
- 1 teaspoon of white pepper
- 2 teaspoons of salt

These steps are instruction on how to make meatballs, just meatball, the soup is made separately.

First of all, mix garlic, red onion, salt, and white pepper in a mortar or mixer. Second step, mix the spice-mixture with the eggs, the tapioca-flour and the minced meat.
