Choose Wisely: 48 legendary characters from the Dynasty Warriors series! - Each officer has their own unique skills and abilities - Create powerful officer teams to conquer every mode. Strengthen your officers with the signature weapon system! Dynasty Warriors comes to mobile with a variety of game modes! - Skirmish: Battle in real time with up to four players - Boss Fight: Jump in and raid the boss with your friends - Raid: Steal fragments from your opponent - War Supply: Occupy mines and acquire resources - Conquest: Compete with other players to take control of the map Dynasty Warriors: Unleashed Official Community Visit our official page for the latest news and events! Official Page: Official Facebook: Official Forum: SUPPORT Having problems? Send an email to help.D.W@nexon.com or contact us within the game by going to Settings > Help and Support. Terms of Service: Privacy Policy: Recommendations: Dynasty Warriors: Unleashed is optimized to run on iOS 9.0 / iPhone 5S and higher. Devices with specs lower than listed may experience crashes. A network connection is required to enjoy the game. You can now defeat enemy officers on the go with the launch of Dynasty Warriors: Unleashed for iOS and Android devices. Nexon, together with XPEC Entertainment and Koei Tecmo Games, have brought over 48 characters from the long-running console series. These include the popular Lu Bu, Guan Yu, Xiahou Dun, and Zhao Zun, all of whom come with voices and pre-battle cutscenes. Players will spend most of their time moving down enemies with combos and the iconic Musou Rage, although the controls have been tweaked for mobile. Holding the attack button executes a basic combo, with more devastating hits tied to a cool-down skill system. Interestingly, you'll also get to swap characters mid-combat, with each hero sporting their own Health and Musou meters. There's an elemental weakness mechanic as well, so you'll likely want a varied team. Assigning equipment is also present in this mobile port. Here are the modes currently available: Conquest Mode - Challenging campaign for one or multiple players Skirmish - Battle in real-time with up to four players Boss Fights - Bypass the underlings and skip straight to the bosses alone or in co-op Raid - Steal fragments from opponents in this multiplayer mode War Supply - Strategically occupy mines and acquire resources Dynasty Warriors: Unleashed is free to download on the App Store and Google Play. Posted on September 28, 2020 by Mikhail Madnani Over the years, many developers and publishers from Japan have brought their franchises to mobile through old ports, new licensed releases, and more. Koei Tecmo and Omega Force's popular Dynasty Warriors franchise is celebrating its 20th anniversary this year and there were two announcements made at TGS 2020 to celebrate this. The first was Dynasty Warriors 9 Empires for literally every console and PC that is set for an early 2021 release in and outside Japan. The second is Dynasty Warriors for iOS and Android. Dynasty Warriors is a hack and slash action RPG for mobile from Koei Tecmo and Omega Force. I'm very curious to see how this controls and runs when the closed beta takes place in Japan and we get some footage of it running on modern phones. Watch the teaser trailer for Dynasty Warriors from TGS 2020 below: Koei Tecmo's Dynasty Warriors franchise has had mobile releases through other companies in the past but this entry is in development at Koei Tecmo and Omega Force (via Twinfinite). The screenshots on the official website look pretty good and the game will feature portrait and landscape orientations in addition to co-op and asynchronous versus modes. As of now, a closed beta is planned for October 8th onwards with sign-ups now live here. An international release has not been announced as of this writing. It is possible they will wait for the game to release in Japan before deciding on an international release. I'm definitely up to try a mobile Dynasty Warriors game considering I've enjoyed my time playing almost every Warriors release on PS4, Nintendo Switch, and PS Vita over the years. What is your favourite Dynasty Warriors game? Categories TagsDynasty Warriors New Release Game Review by Palmass - Published 19/01/2022 - Updated 19/01/2022 The description of Dynasty Warriors: Overlords (by SuperNova Game) Dynasty Warriors: Overlord is officially authorized by Koei Tecmo of Japan. In the game, you can act as a valiant general to charge alone against enemies and conquer this chaotic world where famous heroes are revealed one after another. The game exclusively restores the fun of two-button-mashing with no skill cooldown on consoles and the powerful Musou Dance. Also, it recreates an immersive personal experience of switching alone on the battlefield against thousands of enemies! Besides relieving the epic stories of Wei, Shu, Wu, and Jin kingdoms, the game also brings us all the generals, large maps, and classic modes in Dynasty Warriors. Build your own Kingdom of passion. Feel the ultimate experience of Dynasty Warriors in your mobile phones! [Officially authorized Dynasty Warriors] "Turbulence is a test for true heroes." Dynasty Warriors: Overlord is officially authorized by Koei Tecmo. The game is strictly supervised by the original development team, aiming to fully recreate the epic world. The concept art of heroes and the iconic general animations are provided by Koei Tecmo, recreating the superheroes in players' memories. The mastery of the essence of the original work has been highly recognized by the producer Akihiro Suzuki and supervisor Atsushi Miyauchi of Koei Tecmo. The latter even said, "This is exactly the Dynasty Warriors". [Vanguard in a crowd] Gallop across the battlefield against enemies and feel the ultimate and immersive fighting experience. The theme of Dynasty Warriors: Overlord has never changed! The game is set with no skill cooldown and skills can be switched in real time. With the fun of two-button-smashing, you can make various attack or defense combinations as you wish. With random algorithms of independent dynamic models and simultaneous optimization of background programs, the original limit of same screen display reaches a significant breakthrough. Hundreds of players can be displayed in the same screen, allowing the extraordinary experience of sweeping countless enemies away. Once equipped with your favorite weapon and using specific moves, the Musou ultimates can be perfectly recreated. You can join fierce battles at anytime. [Classic Generals presented] All concept art of heroes are provided by Koei Tecmo. The design enhanced the metallic texture in order to highlight the personalities of generals, while their models remain exactly the same. Animation of generals are also provided by Koei Tecmo. All exclusive animations are presented with exaggerated skills and splendid effects, renewing your memory of the classic world. Popular generals such as Liu Bu, Zhao Yun, Cao Cao, Diao Chan are all waiting for you to fight in this epic world together. Official website Official Facebook community Tags: actionAndroiddynastyWarriors:OverlordsgameplayiosnewgameOfficialLaunchRolePlaying真・三國無雙 The real 3D ARPG Dynasty Legends updates again with the new team mode - Ultimate Dare! Facebook Fanpage: Service: dynastyLegends@taiyouxi.cn Sep 15, 2022 Version 13.1.651 1. New Gameplay: Ultimate Dare 2. New UR Officer: Xun Yu 3. New Genius: Huang Zhong 4. New Divine Weapon Awakening: Cai Wenji 5. New Spirit Pet: Baxia 6. New Mount: White Marsh 7. New Event: Treasure Collection Like most here writing reviews always have been Dynasty Fan, it's nice to see different challenges and login rewards. I also like once you become higher level you can use free sweeps making the game not so slow and grinding. The game has stunning graphics and is fun to play. I like all of the different ways to boost BR. I do wish there was more high level characters in SR and SSR that weren't just pay to get. Seems unrealistic to spend \$100 for a single character and continue spending to star them up... can buy full console games for less... There needs to be more ways to earn them that can be earned daily without server competition. I also want more costumes and customization, that aren't just bought with \$\$ My BIGGEST PROBLEM with this game is the Server Merge!! I have put quite a bit of my time and money into this game and reached top 5 in the server, then you merged with older servers with deep pocket players that pushed me down to 30th place! I'm sure I'm not the only one frustrated about this since most of the rewards are given to top 10 power players!! Even if I spent hundreds of dollars it would not get me back to top place, so it seems pretty pointless to spend any more real money on this game. The gameplay is great and the way it is set up differently than other DW games was interesting. But leveling up characters without spending money becomes impossible and even getting half of the characters is impossible if you don't put a significant amount in at all. You will work hard to build your characters only to realize you cannot compete with the other players that put hundreds of dollars into the game. Then people start to leave the game so it appears there are lots of people playing when in fact they are all running around on your screen but not even on the server at that time. So it's a lose lose situation, you don't spend money and can't compete or you spend money only to play the same 25 players over and over again in head to head. Then you get to the weekly aspirations and guild war and realize more than half of the cities are not even occupied because no one is really on the game. Or you get matched up against another guild and maybe one or two of their members are even on so you continue to get bye rounds. This makes the game so boring! If you are looking to kill some time this game is perfect but if you are looking for a new game to really put time and effort into don't waste your time here because the way players are leaving the game will be dead soon. At least the only players that will be left you will never be able to compete with and so the big rewards you need you won't be able to get. I don't where to start I'm almost absolutely smitten with this game, I enjoy the little story line that's going on. The game slows down a few times and you gotta explore other areas of the game to obtain experience to progress in the story mode. But it isn't that terrible. I enjoy that the characters you acquire during the game you may change into if you wish to have a different that's pretty neat I think. However my one complaint is there are certain characters that are locked and say "stage drop" I really wish there was info in game on where to farm the select character I'd really enjoy "xiahou yun" in my list... There's a select few games that I really enjoy via mobile but this one is definitely one I appreciate it takes me back to my childhood. Literally the only thing that would make this game better honestly is two things a smarter AI when you auto play. And character customization.
